

Kyivstar to Expand Digital Healthcare Offering in Ukraine with Tabletki.ua Acquisition

10.02.2026

KYIV, Ukraine, Feb. 10, 2026 (GLOBE NEWSWIRE) -- **Kyivstar Group Ltd. (Nasdaq: KYIV; KYIVW) ("Kyivstar")**, Ukraine's leading digital operator and the first Ukrainian company to trade on the Nasdaq, has today signed a definitive agreement and completed the transaction to acquire 100% of Tabletki.ua for a consideration of USD 160 million, which will be paid in full in Ukrainian hryvna in Ukraine. Tabletki.ua is one of Ukraine's most widely used digital marketplaces for healthcare products that enables consumers to find, compare, and book medicines and other products at Ukrainian pharmacies.

Tabletki.ua facilitates customers' access to medicines and healthcare, as well as nutrition and consumer products, aggregating data on the availability and pricing of medicines, medical devices and more. Tabletki.ua joins Kyivstar's widening portfolio of digital services, including digital healthcare platform Helsi, ride-hailing and delivery service Uklon, digital media platform Kyivstar TV and the MyKyivstar superapp.

"Even in challenging times, Ukrainian businesses like Tabletki.ua are enabling millions of Ukrainians to benefit from convenient, digital-first solutions, supporting the growth and resilience of the country," said **Oleksander Komarov, President of Kyivstar**. "Tabletki.ua already plays a vital role in everyday life for millions of Ukrainians. This acquisition will allow us to combine Kyivstar's successful track record of running and growing digital businesses with Tabletki.ua's solid foundations to expand digital healthcare to a wider customer base and offer more convenience for all."

Tabletki.ua partners with more than 14,000 pharmacies across Ukraine, and facilitated an average of 14 million online bookings per month in 2025, reflecting its role as a trusted, everyday healthcare tool for Ukrainian families. The gross merchandise value (GMV) of bookings facilitated through the platform amounted to UAH 45 billion (USD 1,056 million) for FY2024 and UAH 57.3 billion (USD 1,191 million) for the last 12 months ("LTM") ending September 30, 2025.

Based on unaudited management accounts, Tabletki.ua generated LTM EBITDA of USD 24 million and LTM net profit of USD 20 million as of September 30, 2025. The agreed consideration of USD 160 million corresponds to a price to LTM earnings (PE) ratio of 8.0X.

Today, Kyivstar also published a presentation for investors that provides further information about Tabletki.ua and the strategic rationale for the acquisition.
